

telemetry_common::Config
::get_double

```
graph LR; A["telemetry_common::Config  
::get_double"] --> B["telemetry_common::Config  
::get_string"]
```

A diagram showing a call from the `telemetry_common::Config::get_double` function to the `telemetry_common::Config::get_string` function. The call is represented by a blue arrow pointing from the left box to the right box.

telemetry_common::Config
::get_string
